

How your clients can benefit from Quilter's Flexi ISA

The concept of the Flexi ISA is quite simple and it can deliver some real benefits to your clients above and beyond those offered by a standard ISA, including:

The flexibility to withdraw funds and replace them within the tax year without impacting the ISA allowance

The ability to maximise the ISA allowance, even after adviser or discretionary fees have been taken

The confidence to invest early in the tax year, knowing you can access funds in case of emergency

Case Study

Katie, has a daughter called Imogen who is starting university shortly. Katie is nervous about investing but with the inflation rate running high she is keen to make a financial plan to help protect her savings.

Sarah is Katie's financial adviser, who has recommended making full use of her ISA allowance as soon as possible this tax year.

Although she is nervous about investing, Katie invests £20,000 after being reassured that she can access her money at any point in the tax year, and still have the option of replacing the money she has withdrawn, later in the tax year.

In September her daughter finds out that she needs an extra £5,000 for rent whilst at university. So, to help her daughter, Katie withdraws £5,000 from her Quilter Flexi-ISA.

Later in the tax year, Sarah reviews Katie's remaining ISA allowance, which shows she can replenish the remaining £5,000, and the additional £500 in adviser fees that she has been paying from the ISA.

Katie takes Sarah's advice and contributes the remaining £5,500, fully maximising the ISA allowance.
